

Left or right- this is wrong. If "Going Upriver" were ORDERED to played by left wing mogul like George Soros, heads would explode - Rush Limbaugh would piss his pants and the FCC would have a conipation.

Sinclair is not acting as a free and impartial station- this is a violation of campaign finance law as a free commercial.

Please uphold the law- they are not acting in the public interest and this point should be noted in their next license renewal. The public owns the airwaves - not the corporations.

Thank you!
